DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment filed 11/19/07.

Response to Arguments

2. Applicant's arguments, see pages 10-11, filed 11/19/07, with respect to the rejection of claims 1-36 under 35 USC 112, first paragraph, have been fully considered and are persuasive. The rejection has been withdrawn.

Allowable Subject Matter

3. Claims 1-36 are allowed.
4. The following is an examiner's statement of reasons for allowance: the limitation "the microprocessor's unprotected nonvolatile memory component and the protected nonvolatile memory component use physical and logical address ranges that are the same" recited in independent claims 1, 10, 19 and 28 has not been taught by prior art. The closest prior art, Murai (4,586,162), discloses using multiple volatile memory components having the same physical address ranges (fig. 3); however, Murai does not disclose that the memory components use the same logical address range.

It is noted that independent claim 28 is directed to an article of manufacture comprising two means-plus-function limitations. According to the specification, these limitations are considered hardware components (starting from page 16, paragraphs 68, 75-77). Therefore, claim 28 and its dependent claims are statutory.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

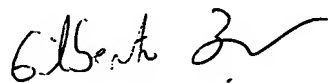

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Dinh whose telephone number is 571-272-3802. The examiner can normally be reached on Mon-Fri: 10:00am-6:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron can be reached on 571-272-3799. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
